Experiental Learning

"Kelionė per pasaulio šalių dienas"

GRETA STANIULIONYTĖ, 5C

The topics we covered:

▶ Safer Internet day

▶ Earth day

▶ World Food Safety day

▶ Europe day

My Final Presentation Introduction

Experiental Learning was very interesting and involving. I have found out a lot of useful information about internet safety, Earth problems, food and European union. Every subject has given me an understanding how it works and what I can do to make it better and safer.

Safer Internet Day

- This day we learned to understand, that Internet gave us access to everything, but it also gave everything access to us. I knew that I have to be very careful while using Internet, but this lesson taught me how to do this and how to act if I feel danger.

- It was fun to play games and discover ways to protect myself.

- I had to use all these information tools to create a poster and now it became easier to choose who to share or not to share my personal information with. Internet vocabulary might be fun talking to friends and avoid awkward conversations with strangers.

THE PROBLEM IS THAT PEOPLE BELIEVE IN SOCIAL MEDIA MORE THAN OTHER PEOPLE.
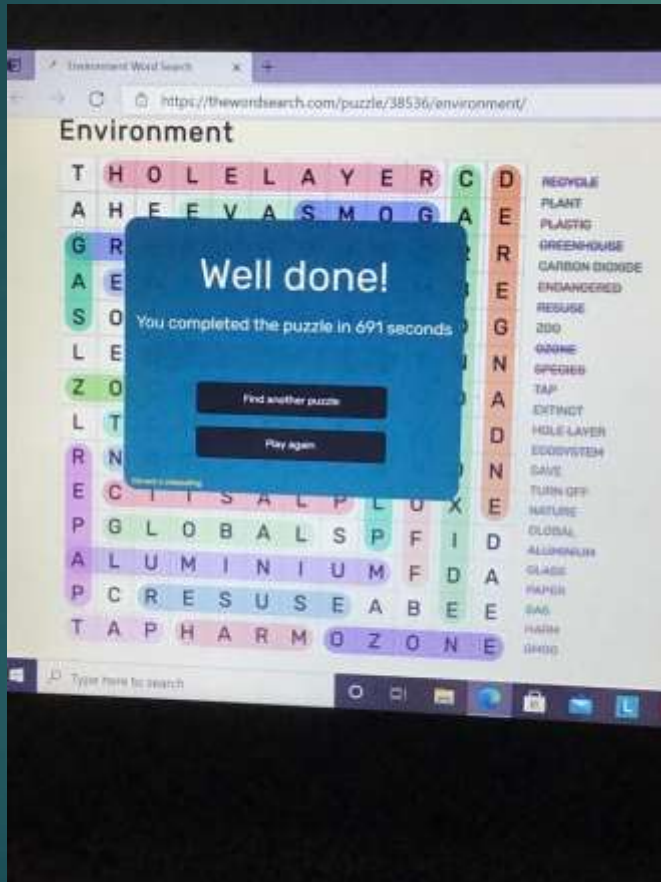

Reflection No. 1

SAFER INTERNET DAY

EARTH DAY

▶ This day we studied about modern environmental movement, climate changes and how these things affect our planet.

▶ It was interesting and also sad to find out how much pollution we create ourself and how to live without causing more damage to Earth.
Earth day

Earth day poem

Yellow is sun

Green is for trees

Red is for flowers

Cleaning this planet we are in power

World Food Safety day

- This day was really interesting and fun. We learned how to prevent, detect and manage foodborne risks, contributing to food security and human health.

- We have shared our favorite food recipes and built food with cubes.

PIZZA

▶ It takes about 15–20 minutes until it cooks

▶ At first you'll need to stretch out the pizza dough into a shape of a circle. Then spread tomato sauce on top of the doug. After that pour slices of cheese on top. To add taste you can choose to add any vegetables, meat and ect. (make sure to wash the vegetables). And the last thing is to spread oil on top of it to make more flavour. Put it in the oven and wait for about 15–20 minutes, Enjoy!

▶ It can be healthy but sometimes it's the opposite (it depends on if you washed your hands or what kind of ingrediens did you use)
Pizza made with cubes

Europe day

- European union is a very important organization to Lithuania. It was great to find out so much information about it.

- We played a very interesting game and had to make comics about European union.

- The funniest part is that we had a history lesson the very next day and we already knew so many things about this union.

Europe day comics

Renovation Program with EU funding

There are more than 38000 multi-apartment blocks in Lithuania. Total of 24000 blocks need to be refurbished thus reducing heat consumption by 30 %. A JESSICA (EU financial scheme) was established in 2009 for funding of refurbishment of multi-apartment blocks constructed before 1993. This scheme provides financial support and energy efficiency requirements.

Final conclusion of my Experiental Learning

I really enjoyed these classes. It was fun and very useful. I found out so much about environment, food, internet and about EU. I've met some new friends and it was really interesting to study from higher classes students.
