# Proverbs about nature

12.

*Bez vetra sa ani lístok na strome nepohne.* " Slovakia

**Meaning:** you cannot have one thing without another. So, without wind, waves cannot exist.

For example, if there are rumors, they are usually based on true events and can be correct from time to time - there has to be something that sparked those rumors.

**Word to word translation:** Without the wind, no leave can move on the tree.

**English equivalent:** "No wind, no waves - "No smoke without fire."

Dūmų be ugnies nebūna.

14. *Non c'è rosa senza spine*

*Italy*

*There's no rose without a thorn*

*This proverb is used for life situations. It means that if you enjoy any beautiful or pleasant thing, you always must face something difficult or painful*

Nëra rožës be spygliu.

# My Poem

A photograph of a large, leafy green tree in a park. The sun is setting behind the tree, creating a bright glow and long shadows. A wooden bench is visible in the foreground on the grass. The sky is a mix of blue and orange from the sunset.

Forests are where animals can breed!

But trees are all gone because  
of greed!

There must be something that we  
can still do!

But do you still care with the things  
around you?

# My Practical Tasks

## My Favourite Dish

Poultry steak with mashed potatoes

My favourite dish is the steak with mashed potatoes.

It is prepared with the fine fillet of poultry and some seasoning.

It usually takes 30 minutes to prepare the steak.

First, wash your hands and place the fresh meat on the clean chopping board. Cut the meat into some peaces. Then use your favourite seasoning to add some taste and leave for 10 or 15 minutes. Then fry the meat in olive oil until it becomes soft.

You can serve the steak with the mashed potatoes and some clean and fresh cucumbers.

I think it's a healthy dish.it contains iron, protein and some fat. To reduce the fat you can grill the meat instead the frying.
